

MSEA Building Purchase

In 2018, the Executive Board agreed that MSEA should purchase a building to house the Association's offices. We determined that we could save money and build assets if we did so.

We spent almost a year searching properties, but we did not find one to suit our needs. Then we suspended the search in the Spring of 2019 because we did not know what would happen to our membership when the Janus decision went into effect. In November of 2019, we realized that we were able to keep the vast majority of the bargaining unit as members and renewed the search.

Attached you will find information on the most recent building under consideration.

Please contact MSEA if you have any questions or wish to be on the Building Committee.
